Re: Hennepin Power Station; Notice of Intent to Close the East Ash Pond, 40 C.F.R. § 257.102(g) and 40 C.F.R. § 257.106(i)(7)

Dear Mr. LeCrone:

Pursuant to 40 C.F.R. § 257.102(g), Dynegy Midwest Generation, LLC (DMG) is providing notice of intent to close the East Ash Pond CCR surface impoundment at the Hennepin Power Station (Hennepin). Enclosed with this notice is written certification by a qualified professional engineer that the design of the final cover system meets the requirements of 40 C.F.R. § 257.102.

This notice of intent to close Hennepin's East Ash Pond was placed in the facility's operating record on May 11, 2021. DMG ceased receipt of all waste streams in this CCR surface impoundment by April 11, 2021. On May 11, 2021, DMG will begin taking the steps necessary to implement the initial written closure plan, which was originally posted to the company's website in November 2016. Pursuant to 40 C.F.R. § 257.102(g), attached to this notice of intent to close is the certification by a qualified professional engineer that the design of the final cover system for this CCR surface impoundment meets the requirements of 40 C.F.R. § 257.102. This certification was originally provided with the initial written closure plan that was previously posted to the company's website. The initial written closure plans may be amended when detailed engineering has been completed. This notice of intent will be placed on our website at <https://ccr.luminant.com> within the next 30 days.

Should you have any questions regarding this submittal, please feel free to address them to Brian Voelker at 217/412-6605 or brian.voelker@vistracorp.com

Sincerely,
Dynegy Midwest Generation

Hennepin's East Ash Pond Design of Final Cover System Certification Statement, 40
CFR§257.102(d)(3)(iii)

Certification Statement 40 CFR § 257.102 (d)(3)(iii) – Design of the Final Cover System for a CCR Surface Impoundment

CCR Unit: Dynegy Midwest Generation, LLC; Hennepin Power Station; East Ash Pond

I, Victor Modeer, being a Registered Professional Engineer in good standing in the State of Illinois, do hereby certify, to the best of my knowledge, information, and belief, that the information contained in this certification has been prepared in accordance with the accepted practice of engineering. I certify, for the above referenced CCR Unit, that the design of the final cover system as included in the initial written closure plan, dated October 17, 2016 meets the requirements of 40 CFR § 257.102.

Victor Modeer, PE, D.GE
