ANNUAL INSPECTION BY A QUALIFIED PROFESSIONAL ENGINEER

40 CFR § 257.84(b) - Annual inspection by a qualified professional engineer.

Site Name / Address
Miami Fort Power Station
11021 Brower Road, North Bend, OH 45052

Operator Name / Address
Dynegy Miami Fort, LLC
11021 Brower Road, North Bend, OH 45052

CCR unit
CCR Landfill

Date of Inspection 11/17/2016

(b)(2)(i) Any changes in geometry of the structure since the previous annual inspection.

Based on a review of the CCR unit's records and visual observation during the on-site inspection, no changes in geometry of the structure have taken place since the previous annual inspection.

(b)(2)(ii) The approximate volume of CCR contained in the unit at the time of the inspection.

1,002,600 Cubic Yards

(b)(2)(iii) Any appearances of an actual or potential structural weakness of the CCR unit, in addition to any existing conditions that are disrupting or have the potential to disrupt the operation and safety of the CCR unit

No appearances of actual or potential structural weakness of the CCR unit were visually observed during the on-site inspection. A review of weekly inspection reports in the operating record, as well as other monthly inspections on-file at the plant, also indicates no existing conditions that are disrupting or have the potential to disrupt the operation and safety of the CCR unit. Consistent with generally accepted engineering practices, routine periodic maintenance is performed to address minor erosion and drainage features to maintain the safe operation of the CCR unit.

(b)(2)(iv) Any other change(s) which may have affected the stability or operation of the CCR unit since the previous annual inspection.

Based on a review of the CCR unit's records and visual observation during the on-site inspection, no other changes which may have affected the stability or operation of the CCR unit have taken place since the previous annual inspection.

40 CFR § 257.84(b) - Annual inspection by a qualified professional engineer.

I, David B. Hoots, hereby certify that this report was prepared by me or under my direct supervision and that I am a duly Qualified Professional Engineer under the laws of the state of Ohio. The engineering services addressed herein have been performed, according to my knowledge, information and belief, in accordance with commonly accepted procedures consistent with applicable standards of practice, and is not a guaranty or warranty, either expressed or implied. Based on the annual inspection, the design, construction, operation, and maintenance of the CCR Unit is consistent with recognized and generally accepted good engineering standards.

David B. Hoots, PE
