

Luminant

**40 CFR § 257.102(k)(5) NOTIFICATION OF INTENT TO RETROFIT
MARTIN LAKE STEAM ELECTRIC STATION – ASH POND AREA - EAST ASH POND, WEST ASH POND AND
NEW SCRUBBER POND**

June 29, 2020

In accordance with 40 CFR § 257.102(k)(5), the owner or operator of a coal combustion residuals (CCR) unit must prepare a notification of intent to retrofit a CCR unit no later than the date the owner or operator initiates the retrofit of a CCR unit.

As detailed in the Retrofit Plan for Martin Lake dated February 28, 2020, Luminant plans to retrofit the Ash Pond Area (the East Ash Pond, the West Ash Pond, and the New Scrubber Pond). The retrofit will be initiated in 2020, and the three impoundments will be retrofitted sequentially beginning with the East Ash Pond. Luminant intends to initiate retrofit activities for the Ash Pond Area (beginning with the East Ash Pond) at the Martin Lake Steam Electric Station on July 6, 2020.
