# **Luminant**Five Years – By the Numbers

362,300,000 mWh of reliable

electricity generated, enough to power the world for a week.

**36** percent decrease in Luminant's total recordable injury rate, culminating in 2012 with a **0.80** incident rate – the company's safest year on record.

# 137 million

**tons** of lignite mined, roughly the same amount held by **1,308,033** railcars.

553 new jobs added in Texas, a 15 percent

increase in the number of our full-time employees, hired even in the midst of a recession.

# \$3.25 billion

investment completed for the creation of an additional **2,200** megawatts of reliable generation.

\$400 million

on goods and services with our valued certified minority- and women-owned business enterprises.

# \$335 millior

invested in opening new mines to supply much-needed fuel to meet the state's demand for electricity.

## \$2.8 billion

in improvements invested in our existing plants and mines, including:

### \$850 million

spent on environmental technology and other improvements to provide cleaner generation from our coal-fueled power plants. Those investments have resulted in a more than **20 percent** decrease in key emissions from a 2005 benchmark while increasing generation by **21 percent**.

>98 percent capacity

factor for nuclear generation, ranking Comanche Peak Nuclear Power Plant as the **top nuclear generator** in the country according to American Nuclear Society magazine.

### \$ \$ \$ \$ \$ \$ \$ \$ \$ \$

# \$9.7 million

in employee and corporate charitable contributions, benefiting the communities in which our employees live and work.

of land reclaimed following mining, more than the size of Bastrop, Cedar Hill and Possum Kingdom state parks combined.

### 6.9 million

**trees** planted – side-by-side and fully grown, enough to circle the Earth twice.
