

Trinidad

Luminant

Power Plant

Basic Facts

Fuel source: Natural gas

Operating capacity and homes powered: 244 MW—enough to power about 49,000 homes in periods of peak demand

Unit and type: 1 steam unit

Year began operation as a gas-fueled unit: 1965

Location: Henderson County

Economic Impact

Luminant and its gas-fueled power plant employees are proud to be a major contributor to the communities in which our employees work and live.

In 2015, Luminant paid tens of millions of dollars statewide in property taxes. The company is the largest taxpayer by a wide margin in virtually all the communities where it operates plants, including its gas plants.

Community Benefit

We take pride in being good neighbors through volunteerism and economic contributions.

Luminant has a rich history in community leadership through employee outreach and financial support of worthwhile projects and community organizations. A few of these deserving groups include:

- Boles Children's Home
- Elder Angels
- Independent School Districts Across Texas

Awards and Recognition

Throughout the years, Luminant's gas facilities have been recognized as community and corporate leaders by a variety of regulatory, conservation, municipal and other organizations.

Trinidad Power Plant proudly maintains a safety record of 35 years without a lost-time injury, 21 years with no DART injuries and 11 years without an OSHA-recordable injury

Environmental Responsibility

Luminant is proud of its strong track record of meeting or outperforming all environmental laws, rules and regulations. Burning natural gas for generating electricity results in few emissions. Luminant uses various environmental control technologies and combustion techniques to reduce emissions of nitrogen oxides below the required levels.
